| 9-19-2020 18:48:36 | Yes | David Hendsbee | Halifax Regional Municipality District 2 | I would support on land fish farming techniques with internal flushing systems to grow healthy fish but also harvest their effluent for organic fish emulsion fertilizer. |
| 10-1-2020 20:43:29 | Yes | Tim Milligan | Halifax Regional Municipality District 2 | It's just recently that I became aware of this. I will be looking into this to get a better understanding of the current situation. |
| 10-2-2020 1:27:43 | Yes | Dave Boyd | Halifax Regional Municipality District 2 | nope, you got my support |
| 10-2-2020 6:37:00 | | Nicole Johnson | Halifax Regional Municipality - District 2 | <p>Thanks for the email and I hear your concerns and its reasonable to want to Protect the Stock. Furthermore at first glance there maybe some complexities surrounding the issuing of a License by the Province for a New Finfish farm that I need to obtain.</p> <p>That said, I'm not sure what the current Counselor for District 2 has done to answer or address your questions or concerns but if Elected I can assure you that I will check with the Municipal & Provincial levels of government to obtain some additional information.</p> <p>Thank you for the Link and should you have any questions do not hesitate to contact me.</p> <p>Be</p> |
